#### Digital Academy Classes

The District will permit a student to enroll in Montana Digital Academy (MDA) classes in order that such student may include a greater variety of learning experiences within the student's educational program or enroll in a class for credit recovery.

The District will allow students in grades 9-12 to enroll in the Montana Digital Academy program under the following conditions:

1. The student must be an enrolled student in the District.
2. A student must be enrolled for a minimum of two courses. This can be a combination of one in-house class and one MTDA class, or two MTDA classes.
3. For Montana High School Association eligibility, the student must be enrolled for, and pass, any combination of four courses or the number of courses determined by the Montana High School Association.
4. The student will be required to take the class (es) in the school building during school time. Classes may be taken outside the school building only with the approval of the principal.
5. Students who wish to take MTDA classes and participate in MHSA activities must follow all extra-curricular eligibility rules.
6. Each spring the administration will present the MTDA course offerings to the Board for approval.
7. The District will allow students to complete MTDA courses approved by the principal, superintendent and board as listed on the "Waiver of Graduation Requirements" application.
8. In order for a home school or private school student to participate in MHSA activities, the student must be enrolled in, and pass, the number of courses determined by the Montana High School Association per semester that are taught on campus from a highly qualified teacher.
